Activation Matrix.

Introduction

The Activation Matrix provides a starting point from which to create a unique and individual response to each particular town centre, pairing an activity with a desired social outcome, nurturing social capital and building upon the identified skills base of the local residents. When tailoring your own community's Activation Matrix, it is also a good idea to begin considering possible locations for activities.

	Desired Outcome										
	Activity	ldentity	Social inclusion	Creates networks	Wellbeing	Local economy	Health	Environment	Temporary solution		
Retail and Economy	Community markets	•	•	•	•	•	•				
	Food trucks		•	•	•	•			•
